# Vinyl Styles

Vinyl outdoor furniture has been produced for over 50 years and continues to evolve. Used Mostly in the commercial environment, vinyl strap furniture has proven to stand the test of time, whether utilized in a water park environment or around a community pool. With 53 Vinyl colors and 22 frame colors to choose from, our strap furniture can be made to suit any environment. Our vinyl is double wrapped which secures the vinyl to the frame. Our vinyl is extruded for outdoor use. It is commercial quality 100% virgin vinyl. Treated with ultra violet inhibitors and special additives to resist fading.

# Sling Styles

Sling furniture has rapidly become the most popular choice in outdoor environments. Sling furniture offers comfort and style, with many different patterns to choose from to compliment any outdoor space. We manufacture our sling lines for the commercial environment, giving you the strength needed and look desired. We offer a wide selection of vinyl coated polyester, P.V.C., Olefin, and premium 100 percent solution dyed woven acrylic fabrics designed for outdoor use. Ideal for the home and affordable for the community looking for a more elegant and durable look.

# Cushion Styles

Cushion outdoor furniture allows you to take the indoor comfort to the outdoor environment. Cushion furniture gives you the opportunity to enhance your patio, deck, or any other outdoor area. Our cushions are constructed of Sunbrella and Outdura fabrics. The fabrics are a solution dyed acrylic with inhibitors that help resist against fading, resist water, dries quickly, and does not require comprehensive treatment.

# Refinishing

**When it comes to Patio Furniture Refinishing, we are the best in the business! We meticulously inspect, repair and refinish your old patio furniture to bring it back to life! Here is a summary of our Ten Step Refinishing Process:**

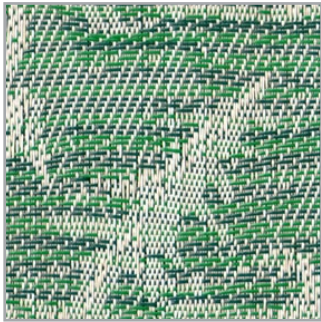

1. We first take measurements of the furniture and all measurements are recorded.
2. We make a primary evaluation of the needed materials.
3. The furniture is then stripped of all vinyl straps or sling fabric.
4. We carefully inspect the furniture and make sure that every weld is structurally sound. Any welds that don't pass our inspection are re-welded.
5. The furniture is then sand blasted and cleaned.
6. We then inspect the furniture again and replace any hardware that needs replacing.
7. The furniture is powder coated then baked in an oven at 400 degrees Fahrenheit for 30 minutes.
8. The furniture then goes through final inspection. Once it passes final inspection, the frames are covered with temporary, heavy duty paper to protect the finish.
9. The furniture is re-inspected and the vinyl straps or sling fabric is installed.
10. Finally the furniture is shipped back to the customer looking as close to new as possible!
